## BEAUTIFUL NAUSET HEIGHTS

Nauset Heights Association Has A Wonderful Year  
Planned for 2014

Make sure you are a member!

Don't miss all the fun activities!

As editor of the Nauset Heights Newsletter, I have to be honest. I have only heard from Cape neighbors and friends that this has been a very memorable winter. I spend the winter in Florida. However, one of our favorite topics in Florida is the northern winter weather! So, I know that there have been numerous snow storms and cold weather. Even some of my snow loving friends have grown tired of the weather. But, spring has arrived! I know we are all looking forward to a glorious summer in our very special neighborhood.

By now hopefully all of us have sent in our membership forms and dues for 2014. There are so many great reasons to be part of the Nauset Heights Association,

including our neighborhood directory, summer vehicle stickers, communications through our website, newsletters, and emails about immediate news. There's still time to join NHA for 2014!

In addition, please consider joining one of our neighborhood committees (See Page 2) and lending a hand. This is a great way for newer members to get to know their neighbors and for our seasoned members to visit with old and new friends. Visit us also on the web at:

## A Message from Our Board President, Carl Trevison

*In her column Joni Corcoran described our Cape winter weather. It seems that we were treated to a "snow event" just about every Wednesday and are all most likely "Winter Weary". The Cape shoreline again took on a new look thanks to Mother Nature's pounding winds and waves. I am sure that after this winter we are all looking forward to warm summer days with family and friends.*

*One of our members alluded to the fragile nature of our wonderful Cape location. We are all truly stewards of this environment. I was reminded that we have an opportunity to limit our personal impact by using environmentally friendly fertilizers, minimizing equipment noise and nighttime lighting. These are all good ideas. Thankfully, our Association has an active Environmental Committee with members who can offer advice on environmental alternatives should you chose to reach out to them.*

*With our rather labor-intensive membership renewal process behind us we can now look forward to another season of fun NHA activities. As my term of office comes to an end, I thank all of our volunteer Board and Committee members for their tireless efforts and their assistance in putting together our wonderful NHA summer activities. We are truly fortunate to have such a great team working on our behalf. In addition a sincere thank you to members who continued to voluntarily financially support the Stair/Capital Fund.*

*My best wishes to you, and to your family. Have a great summer.*

**SHORT STORY AND PHOTOS FROM OUR NAUSET COMMUNITY**

Here is a true story conveyed to **Dick and Elena Rowson** by their two young sons, Peter and John, following one of their expeditions in the nearby dunes, on the ocean side of Nauset Heights. The family still owns and uses the Alden Road home as their summer residence, including their two grandsons.

*seven and eight years old, spent their summers at our Cape house on 14 Alden Road, and often went searching for frogs by the lake.*

*On this particular day, they came upon a man, presumably an artist and behind him partly obscured by the tall grass. there appeared to be a female figure. The artist, surprised by the encounter, blurted out, "Would you two boys like to see a naked woman?" Without missing a beat, Peter, the elder of the two, replied, "No thanks; we're looking for frogs."*

*In those days -- the mid-1960's -- there was a large lake in the middle of the beach grass dunes between the ocean and Nauset Heights to the north of inlet toward the Orleans Beach area.. Our two sons, Peter and John then*

**HISTORY FACT**

Did you know that Cape Cod was formed at the end of the last ice age, almost 24,000 years ago? And it is still constantly changing with the winds, waves, and storms that batter it each year.
